

Daxko Appoints a New SVP of Services

Birmingham, AL - Daxko, a leader in software for member-based organizations, recently announced the hire of Molly Harrison as Senior Vice President of Services. Molly will lead Daxko's award-winning Services team while maintaining a high-touch Services operation and serve in a vital role as a part of Daxko's Executive Leadership team.

Molly comes to Daxko after almost 15 years at ADP in various sales and operations roles including leadership positions in Project Management and Implementation.

Most recently, she led the Business Consulting team for ADP's Global Enterprise Solutions.

Molly has a passion for development and has been active in helping others develop leadership skills. She led the ADP Women in Sales Leadership steering committee, spearheading programs designed to attract and develop future female leaders, and she actively mentored at both ADP and other local companies. "Recently, I was asked what I have been most proud of in my career, and truly, it has been the people I have helped grow and develop in their careers," Molly says. Her approach to mentoring is being inclusive, listening to individual team members' interests, and defining what success looks like for the individual.

Daxko is known for its unique and vibrant company culture, where employees are "team members" and semi-annual company wide meetings are dubbed "Kickoff" and "Halftime". That emphasis on culture was not lost on Molly. "I was immediately impressed by Daxko's engaging culture, transparent leadership, and the innovation that is happening everywhere in the business. Daxko is so much more than a software company," she says.

Daxko has built a reputation for delivering exceptional experiences and building authentic relationships with customers. As SVP of Services, Molly will have leadership oversight of Project Management, Solutions Analysts, Pre/Post-Launch Customer Education Services, Customer Success and Delivery Services. David Gray, Daxko's President and CEO, says, "This is a phenomenal leadership opportunity for Molly to play a strategic role in the continued growth and success of a company that puts a genuine emphasis on our team and our customers."

Molly mirrors that sentiment, "As Daxko continues to grow, the authentic relationships we build with customers are the foundation of our business model," she says. "I believe I can make a big impact on the business by ensuring we maintain those strong

relationships, deliver exceptional experiences to customers, and scale and develop our next generation of Service leaders."

About Daxko

Birmingham-based Daxko provides mission-critical software and services to member-based nonprofits to help them do more with less, grow their constituency, drive involvement, and remain relevant in their community. Daxko is a multi-year award winner for Great Places to Work, and has more than 150 team members in Birmingham. To learn more, visit daxko.com.
